

CourseNo: ARCHA4676_001_2013_1
Meeting Location: AVERY HALL 504
Meeting Time: F 09:00A-11:00A

Instructor Information:
[Chenriette Attali](#)

Each class is led as an open critique tailored to individual strengths and interests of the students. Students are expected to produce work for every class for review.

Students will build up and present a portfolio of images, which forms a body of work that is an expression of their individual photographic vision as developed throughout the course.

A4615 Architectural Photography II in the second half of Spring semester will focus on night photography as an extension of the course.
