

CourseNo: ARCHA4726_001_2013_3

Meeting Location: [AVERY HALL 300](#)

Meeting Time: W 09:00A-11:00A

Instructor Information: [Michael J. Rock](#)

In this seminar we will consider the challenges of multiple screen experiences focusing specifically on the design and narrative possibilities of a mobile theater designed for moving image and sound. Together we will research the history of the multi-screen theater and the artistic, financial, technical and design constraints that will shape possible outcomes. The class will consist of readings, class discussion, research presentations and a concept design presentation. We will also work directly with artists, producers and promoters to better understand the programmatic needs.
